COVER

Oklahoma State Flag

The cover illustration represents the emblem in the center of the Oklahoma State Flag, which is an Osage Warrior's buckskin shield, decorated with pendant eagle feathers. Across the face of the shield runs the red man's calumet, or pipe of peace, crossed with the white man's peace symbol, the olive branch. The shield implies defensive or protective warfare. The small crosses on the shield are the Indian's graphic sign for stars, which indicate lofty ideals or a purpose for high endeavor. The important symbols, however, are the calumet and the olive branch. These override the shield, the symbol of war, and represent a predominate love of peace by a united people, and the union of the Indian Territory and the Oklahoma Territory into the one great State of Oklahoma.

FOREWORD

The Indian Education Program in Oklahoma is financed and operated under the provisions of a contract between the U. S. Bureau of Indian Affairs, Department of the Interior, and the State Department of Education. The supervision of the program is carried out entirely by the State Department of Education as authorized by the Johnson-O'Malley Act of 1936. Prior to 1947, the program was administered by the Indian Bureau.

This Eighteenth Annual Report of Indian Education in Oklahoma has been prepared by the Division of Indian Education to comply with State Contract No. 14-20-0400-783.

We wish to extend our appreciation to Mr. Virgil N. Harrington, Area Director of the Muskogee Area, to Mr. Lester T. Towle, Area Director of the Anadarko Area, and to their staff members for their cooperation and assistance in carrying out the program of Indian Education.

Sincerely,

Oliver Hodge

NARRATIVE

Due to the change in the financing of the Oklahoma Public Schools and the addition of new Federal Programs throughout this Nation, we are of the opinion that a review of the Johnson-O'Malley Program is in order.

The attendance of the Indian children in the public schools has been satisfactory and the holding power for graduation from the eighth grade as well as high school is reflected in the following: During 1964-65 school term there was an increase of 71 eighth grade, and 159 high school graduates over the 1963-64 term.

Indian pupils graduating from high school are taking an ever increasing interest in some type of post high school training. Each of the Area Offices has had an increase in the number of these students seeking placement in Vocational or College opportunity.

As usual, the noonday lunch for the indigent Indian child is an ever increasing problem, especially Indian families residing inside the city limits of incorporated towns or cities of 500 or more population, and are not eligible according to the Oklahoma Plan becuase of residence. It should also be kept in mind that each individual school district, with its Administrator and Board of Education, has the sole responsibility of determining the indigent.

We are of the opinion that it has been a successful year.

STATISTICAL REPORT

Statistical Tables:

1. EXHIBITS "A" (1) THROUGH "A" (4). This part of the annual report contains tables of statistical data to comply with State Contract No. 14-20-0400-783.

2. EXHIBITS "B" THROUGH "F". These tables contain information necessary to the operation of the program in so far as the Division of Indian Education, State Department of Education, and the Area Offices are concerned.

The explanation accompanying each table gives, briefly, the nature of the data it contains. All of the tables are shown by counties where a breakdown is given. The county totals were compiled from the reports of each district participating in the program. All of the data of each individual district is on file in the office of the Division of Indian Education.

NUMBER OF DISTRICTS AND SCHOOLS. There were 425 districts with 426 schools located in 60 counties participating on the program for 1963-64 1/ Of the 426 schools, 178 were Eauqlization Enrichment and 248 were Special Service.

TAX RATE. All schools to receive Johnson-O'Malley Funds, must levy the maximum of twenty (20) mills. This is equal to the fifteen (15) mills required for state equalization aid plus the five (5) mills local initiative. This rate applies to all classes of schools.

1/ 1963-64 is the qualifying year for fiscal year 1965. See Appendix for 1964-65 Statistics
